

- DIGITALIZATION OF THE OIL AND GAS INDUSTRY -

SEMANTIC DAYS

20TH-21ST MAY 2014

Conference for major new improvement in integrated work processes and knowledge management.

Digitalization of the oil and gas industry

Radisson Blue Atlantic Hotel, Stavanger, Norway. May 20-21, 2014

Four important organizations are present on the conference and they collaborate on common standardized solutions for the oil and gas industry within projects, production, operations, maintenance, and logistics and they are:

President & CEO
Ray Topping

Fiotech is a global community of capital facilities stakeholders working together to drive productivity and efficiency improvements by advancing technology and innovative practices.

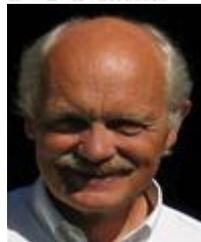

President & CEO
Alan Johnston

MIMOSA's open standards enable collaborative asset lifecycle management in both industrial and military applications.

President & CEO
Thomas J. Burke

OPC is all about Open Productivity & Connectivity in industrial automation and the enterprise systems that support industry.

President & CEO
Nils Sandsmark

PCA is a non-profit global member organization to provide open specifications to be used as standards for enabling the interoperability of data, software and related matters.

These four organizations discuss how they collaborate in producing a common set of reference data for the industry.

The purpose of the Semantic Days Conference is to deliver value to the industry and to the public sector by promoting semantic technologies for improved collaboration and knowledge management and by bringing people together in a

forum that supports learning, networking and business development.

We are looking forward to an inspiring conference with challenging discussions in Stavanger, 20th - 21st May 2014, and hope to see you there. Take the opportunity to bring your colleagues to this venue. If you consider co-locating a project meeting with the conference please let us know.
